

How to use:

Apply a **thin layer** to a cleansed and damp skin on face, neck, and cleavage. **Gently pat**. Do not rub in. Allow to absorb for approximately 5-10 minutes. If you want to prevent the feeling of excessive skin tightness, pat in an appropriate cream once the product is absorbed. For best results, use the cream from the DuoLife Collagen Beauty Care line. If the product “rolls up” under make-up or cream – this is a sign that you need to reduce the dose for the next application.

Storage:

DuoLife Collagen Beauty Care Skin Sensitive should be stored in a dark and dry place and should not be exposed to direct sunlight. It should be stored at a temperature of up to 32°C.

Precautions:

Do not use if you are allergic to any of the ingredients. The product is designed for use on the face, neck, cleavage, and around the zygomatic arch and cheekbones. **Do not apply directly under the eyes and to the eye sockets or eyelids.**
