DuoLife Beauty Care Collagen Face Cleansing Foam 150 ml

Collagen

BEAUTY CARE

Feature/Ingredient	Advantage/Properties	Benefit/Effect	Category
Natural collagen extract with outstanding moisturising properties	Collagen is the most important connective tissue protein made up exclusively of amino acids. It binds cells together like glue. Unfortunately, at the age of about 25, the skin starts to lose collagen. Its annual loss is estimated at about 1%. It is necessary to provide the skin with natural collagen to slow down the process.	Significant improvement in skin condition from the very first application. Cleansing the skin of impurities and excess sebum for youthful, moisturised, and supple skin.	 TARGETED ACTION
Jellyfish extract – a rich source of natural glycosaminoglycans (mucin and chondroitin)	Glycosaminoglycans are an essential element of the extracellular matrix that holds collagen and elastin fibres in position. Chondroitin has an incredible ability to bind water – 3 times higher than hyaluronic acid.	A noticeable improvement in skin condition from the very first application. Cleansing the skin of impurities and excess sebum for smooth, firm, visibly moisturised, and radiant skin.	 TARGETED ACTION
Amino acid composition of brown-algae polysaccharides and green-algae amino acids is very similar to that of collagen fibres	They act as substrates for the biosynthesis of natural glycosaminoglycan polysaccharides and natural collagen fibres in the skin.	Visible improvement in skin condition – denser skin texture, firmer and more elastic skin with each cleansing of the face, neck, and cleavage.	 TARGETED ACTION
Naturalness index 95.9%	Guarantee that the product contains 95.9% ingredients of natural origin as per ISO 16128 standard.	A natural product – certified natural products or products of natural origin.	 NATURALNESS

Silky lightweight foam

Easy to apply with no need to rub the product in very strongly.

Provides gentleness and soothing effect during application, perfect for sensitive skin.

**COMFORT
OF USE**

Does not contain irritating washing ingredients, such as SLES, SLS

The lack of potentially drying and irritating cleansing ingredients to ensure adequate cleansing and care **for sensitive skin and skin prone to irritation and redness.**

Application of the foam **does not cause excessive drying and irritation of the facial skin.**

**COMFORT
OF USE**

A special application method that prevents the product from coming into contact with the skin

The lack of contact with the skin guarantees **microbiological purity of the product during shelf life (24 months) and for 6 months after opening.**

Safe and hygienic use throughout shelf life.
