DuoLife Beauty Care Collagen Skin Sensitive 50 ml

Collagen

BEAUTY CARE

Feature/Ingredient	Advantage/Properties	Benefit/Effect	Category
Collagen hydrate with preserved biological activity and triple helix structure	Targeted product action to stimulate collagen synthesis. A cosmetic designed to visibly tighten and firm facial skin.	Significant improvement in skin condition from the very first application. The result is youthful, smooth, firm, and supple skin.	 TARGETED ACTION
Ectoine – a substance of natural origin	A natural substance produced by Gram-positive bacteria and Gram-negative bacteria, also found in plants called resurrection plants that live in extreme conditions. It protects our cells from so-called thermal shock and water shock. It also protects our skin from all types of allergens.	Prevents excessive drying of the skin causing premature ageing and irritation. Designed for hypersensitive, allergic, and atopic skin as confirmed by tests.	 TARGETED ACTION
Collagen hydrate with patented heat and microbiological stabilisation technology	Unique, exclusive technology on the European market. The only product on the market with such parameters. Microbiological stabilisation prevents the growth of microorganisms – user safety. Thermal stabilisation guarantees product stability at a temperature up to 32°C.	The only product of this type on the cosmetic market that does not require storage in special thermal conditions. You can always take it with you as this does not affect the quality of the product.	 UNIQUENESS
Melanin-rich collagen hydrate (~1%)	Helps protect the skin against UV radiation.	Protects the skin against harmful UV radiation.	 PROTECTION

Naturalness index
99.4%

Guarantee that the product contains **99.4% ingredients of natural origin** as per ISO 16128 standard.

A natural product – certified natural ingredients or ingredients of natural origin.

NATURALNESS

Protein/Collagen content 93.1%

A very thin layer of hydrate applied on face, neck, and cleavage skin guarantees spectacular results: **deeply moisturises and firms the skin, smooths wrinkles, and delays the ageing process.**

You only need a small amount of hydrate on the skin, which makes the product very efficient: 50 ml of the product will last for about 1 to 2 months of regular use.

EFFICIENCY

"Natural" smell

No potential **allergenic agents.**

Minimal risk of allergies and skin irritations when using the product.

SAFETY

A special application method that prevents the product from coming into contact with the skin

The lack of contact with the skin guarantees microbiological purity of the product during shelf life (24 months) and 6 months after opening.

Safe and hygienic use throughout shelf life.
